

BHIPP Services

BHIPP provides support to pediatric primary care providers in addressing the behavioral and developmental needs of their patients.

Services include:

- Telephone consultations provided by our team of experienced child psychiatrists and behavioral health professionals.
- Telemental health services.
- Training opportunities covering behavioral and developmental topics.
- Referral and resource networking to help identify local resources tailored to the patient.
- Care coordination for the patient and family.

Calling BHIPP

- ✓ Call 855-MD-BHIPP (632-4477).
- ✓ Provide information about your case or consultation question to our behavioral health clinician.
- ✓ The behavioral health clinician will address your request directly and/or arrange for one of the BHIPP consultants to call you back at a time that is convenient for you (within 1 business day).
- ✓ The behavioral health clinician will send you a written summary of the call for your records.

Monday through Friday
9:00am - 5:00pm

Telemental Health Services

When indicated, referrals to telemental health services are available free of charge and regardless of your patient's insurance status.

- Telepsychiatry (e.g., consultation, evaluation, medication prescribing)
- Telecounseling (e.g., cognitive behavioral therapy, motivational interviewing, etc.)

All telemental health services take place through a HIPAA-compliant encrypted video call at the PCP's office.

In all cases of direct patient care, BHIPP's Care Coordinator will work with the PCP and family.

BHIPP TeleECHO™ Clinic

Project ECHO™ (Extension for Community Healthcare Outcomes) is a collaborative model of medical education that improves access to specialty care by linking expert specialist teams with primary care providers through real-time, online learning sessions called teleECHO clinics.

- ✓ TeleECHO clinics connect BHIPP consultants with PCPs in their local communities to provide didactic presentations and case-based learning.
- ✓ Participants join teleECHO clinics from their own desktop or mobile devices using free videoconferencing software.
- ✓ TeleECHO clinics will improve providers' knowledge of mental health screening and evaluation, and in-office interventions, with an emphasis on behavioral and pharmacological interventions.
- ✓ Free CME and CEU credits.

Who can participate?

- ✓ All levels of providers throughout Maryland are welcome and highly encouraged to participate, including: physicians, physician assistants, nurse practitioners, registered nurses, mental health practitioners, social workers and other related staff in pediatric primary care offices.

To register for BHIPP teleECHO clinics, please visit www.mdbhipp.org or call 855-MD-BHIPP (632-4477)

Acknowledgments

BHIPP is made possible through funding from the Maryland Department of Health, Behavioral Health Administration and partnerships among the University of Maryland School of Medicine, Johns Hopkins University School of Medicine, and Salisbury University.
