

What is NC-PAL?

NC-PAL is a behavioral health telephone consultation program available to pediatric health care providers.

When providers have a question about behavioral health in children and adolescents, they can call NC-PAL to be connected with the information they need. Our resource specialists respond to clinical questions, make referrals, and connect providers to one of our child and adolescent psychiatrists. Our board-certified psychiatry team is on hand to assist with diagnostic clarification and medication management.

What types of questions can we help with?

- Consultation on diagnoses, medications and psychotherapy interventions for a wide range of behavioral health needs (e.g. mental health care guides, screening forms)
- Connection with community resources (e.g. intensive in-home providers, support groups)
- Information on government programs (e.g. enrolling families for WIC, CDSA, CC4C)
- Guidance on behavioral health issues, autism spectrum disorders, intellectual and developmental disabilities

NOTE: NC-PAL consultations do not establish a physician/patient relationship with an individual patient. Providers who contact NC-PAL are responsible for providing direct care to their patients.

NC-PAL Phone Line (919) 681-2909

Phone Line Hours

8 a.m. – 5 p.m., Monday – Friday (excluding major holidays)

A&Q

Non-clinical provider questions can be sent to:

ncpal@duke.edu

NC-PAL is not an emergency/crisis line. If you are in need of emergency support services, please call 911 or go directly to your nearest emergency department.
